

GY111: Fundamentals of Physical Geography

[View Online](#)

17 items

Recommended module text (2 items)

An introduction to physical geography and the environment, by Joseph Holden, 2012

[Book](#) | [Key](#)

An introduction to physical geography and the environment, by Joseph Holden, 2012

[Book](#) | [Key](#)

Global tectonic and climate systems (2 items)

Fundamentals of the physical environment, by Smithson, Peter; Addison, Kenneth; Atkinson, K., 2008

[Book](#)

Global geomorphology: an introduction to the study of landforms, by M. A. Summerfield, 1991

[Book](#)

Hydrological and fluvial systems (4 items)

Fluvial forms and processes, by Knighton, David, 1998

[Book](#)

Principles of hydrology, by Ward, R. C.; Robinson, M., c2000

[Book](#)

River processes: an introduction to fluvial dynamics, by Andre

Robert, 2003

[Book](#)

River processes: an introduction to fluvial dynamics, by Robert, Andre

, 2003

[Book](#)

Weathering and slope systems (2 items)

Weathering: an introduction to the scientific principles, by Bland, W.; Rolls, David, 1998

Book

Weathering: an introduction to the scientific principles, by W. Bland; David Rolls, 1998

Book

Glaciers and glaciation (2 items)

Glaciers & glaciation, by Benn, Douglas I.; Evans, David J. A., c2010

Book

The periglacial environment, by French, Hugh M., c2007

Book

Coastal and aeolian systems (2 items)

Arid zone geomorphology: process, form and change in drylands, by Thomas, David S. G., 2011

Book

Coasts: form, process and evolution, by Woodroffe, Colin D., 2003

Book

Biogeographical systems (3 items)

Biogeography: an ecological and evolutionary approach, by C. Barry Cox; Peter D. Moore, c2010

Book

Fundamentals of biogeography, by Huggett, Richard J., 2004

Book

Fundamentals of biogeography, by Richard J. Huggett, 2004

Book
